Shape Sorting and Sensitivity Creation System

The new feature, automatic sensitivity creation system enables the machine to sort various materials in high accuracy. It's simple material feeding and discharging system makes the machine very competitive in price.

Easy Sort Setting in Different Materials

Scan the accepts image with full color camera.

Scan the rejects image.

Press the button to create the sensitivity by which the machine distinguishes accepts and rejects.

1 Shape Sorting

Shape Sorting enables the machine to sort the material by shape (such as broken or adhered) which conventional color sorters could not achieve.

2 Stable Supply of Material

Feeder supply system enables fine adjustment of feeding amount.

3 Lightly Operating Touch Panel

Screen can be operated with the same actions as smartphones. Excellent visual screen design provides user-friendly operation.
